monica.alexander@utoronto.ca

Academic Appointments

University of Toronto

Assistant Professor, Statistical Sciences and Sociology July 2018 – *current*
(Maternity leave: April 2019 – December 2019, June 2021 – December 2021)

Education

Ph.D (Demography), **University of California, Berkeley**, 2018.

Dissertation: Bayesian Methods for Mortality Estimation.

Committee: Josh Goldstein (chair); Ken Wachter; Dennis Feehan; Jas Sekhon.

M.Arts (Statistics), **University of California, Berkeley**, 2015.

M.Social Research (Demography), **Australian National University**, 2013.

B.Science (First Class Honors) (Maths and Chemistry), **University of Tasmania**, 2008.

Professional Appointments

Member, Technical Advisory Group

UN Interagency Group

for Child Mortality Estimation

April 2023 – *current*

Fellow

Institute for Clinical Evaluative Sciences

January 2019 – *current*

Papers

(*) denotes student/trainee author

(+) denotes co-first authorship

(#) denotes senior authorship

Peer-reviewed articles

Katz, L.(*), Chong, M.(*), and **Alexander, M.**, ‘Measuring short-term mobility patterns in North America using Facebook Advertising data, with an application to adjusting Covid-19 mortality rates’. (accepted, *Demographic Research*).

Yeung, J.(*), **Alexander, M.**, and Riffe, T. ‘Bayesian implementation of Rogers-Castro model migration schedules: An alternative technique for parameter estimation’. *Demographic Research*, 2023, 49(42): 1201-1228.

Alexander, M., and Alkema, L., ‘A Bayesian Cohort Component Projection Model to Estimate Women of Reproductive Age at the Subnational Level in Data-Sparse Settings’, *Demography*, 2022. 59(5): 1713–1737.

Maheu-Giroux, M, Sardinha, L, Stöckl, H, Meyer, S, Godin, A, **Alexander, M.**, and García-Moreno, C. ‘A framework to model global, regional, and national estimates of intimate partner violence.’ *BMC medical research methodology*, 2022. 22(1): 1–17.

Susmann, H., **Alexander, M.**, and Alkema, L.. ‘Temporal models for demographic and global health outcomes in multiple populations: Introducing a new framework to review and standardize documentation of model assumptions and facilitate model comparison’. *International Statistical Review*, 2022. 90(3):437-467.

Alexander, M.(+), and Root, L.(+), ‘Competing effects on the average age of infant death’. *Demography*, 2022. 59 (2): 587–605.

Kiang MV, Tsai AC, **Alexander, M.**, Rehkopf DH, Basu S. ‘Racial/Ethnic Disparities in Opioid-Related Mortality in the USA, 1999–2019: the Extreme Case of Washington DC.’ *Journal of Urban Health*, 2021. 98, 589–595.

Wilson, T., Grossman, I., **Alexander, M.**, Rees, P., and Temple, J. ‘Methods for small area population forecasts: state-of-the-art and research needs’, *Population Research and Policy Review*, 2021. 41, 865–898

Grants awarded

Principal Investigator:

Social Sciences and Humanities Research Council Insight Grant <i>Deficits of migration in the age of Covid-19</i> CAD \$60,000	2023–2025
Data Sciences Institute, University of Toronto Catalyst Grant <i>Inequality in childcare: The case of nannies in Canada.</i> (co-PI) CAD \$100,000	2023-2024
Data Sciences Institute, University of Toronto Computational and Quantitative Social Sciences Grant <i>Deficits of migration in the age of Covid-19: A new approach to studying changing migration patterns.</i> CAD \$10,000	2023-2024
School of Cities, University of Toronto Urban Challenge Grant <i>Disparities in climate-induced health outcomes in the Greater Toronto Area.</i> (co-PI) CAD \$75,000	2021-2022
Data Sciences Institute Data Access Grant <i>To purchase data for research on disparities in climate-induced health outcomes in the Greater Toronto Area.</i> (co-PI) CAD \$10,000	2021-2022
Social Sciences and Humanities Research Council Insight Development Grant <i>Using Facebook data to measure and understand international migration patterns in Canada</i> CAD \$59,000	2019–2023

University of Toronto Connaught New Researcher Award 2019–2021
CAD \$18,900

Partner Investigator:

Australian Research Council 2019–2022
Discovery Project Grant
Developing Robust Small Area Population Forecasts for Planning and Policy

Teaching

University of Toronto
Applied Statistics II (graduate, statistics) Winter, 2020–2023
Demographic Methods (graduate, statistics) Winter, 2019
Materials: <https://github.com/MJAlexander/demographic-methods>
Statistics for sociologists (graduate, sociology) Winter, 2023
Intermediate data analysis (graduate, sociology) Winter, 2021, 2022
Intermediate quantitative methods (undergraduate, sociology) Fall 2020, Winter 2023

University of California, Berkeley
Instructor, Formal Demography Workshop June, 2017
Instructor, Formal Demography Workshop August, 2015
Graduate Student Instructor, Demographic Methods Fall Semester, 2014

Other
Instructor, *Code Horizons* 2023–
Designed and taught workshop on non-traditional data sources in demography April 2022
Materials: <https://mjalexander.github.io/demopop-workshop/>
Designed and taught workshop on social media in demographic research April 2021
Materials: https://mjalexander.github.io/social_media_workshop/

Conference presentations and invited talks

Listed for the past five years.

2023

Balancing different information sources and modeling decisions in the Bayesian estimation of demographic quantities

British Society of Population Studies (BSPS) Annual Meeting (September)

A Bayesian framework to account for misclassification error and uncertainty in the estimation of abortion incidence

American Sociological Association (ASA) Annual Meeting (August)

Using social media data to estimate migration

Joint Statistical Meetings (JSM) (July)

Estimating stillbirth rates by timing

International Statistical Institute (ISI) World Statistics Congress (July)

Bayesian demography: a brief history, recent applications, and future directions

Statistics Seminar Series, *University of Washington* (April)

Racial disparities in fetal and infant outcomes: a multiple decrement lifetable approach

Population Association of America (PAA) Annual Meeting (April)

Racial disparities in fetal and infant outcomes: insights from, and for, formal demography

Demography Seminar Series, *Australian National University* (June)

Nuffield Sociology Seminar Series, *Oxford University* (March)

2022

Estimating stillbirth rates by timing

Institute of Mathematical Statistics (IMS) International Conference on Statistics and Data Science (December)

Competing Effects on the Average Age of Infant Death: Reconsidering the Approximation of ${}_1a_0$

Social Statistics Seminar, *University of Manchester* (November)

Racial disparities in infant outcomes: insights from, and for, formal demography

Social Demography Seminar, *Harvard University* (November)

Jointly estimating subnational mortality for multiple populations

Bayesian Methods for the Social Sciences Workshop (October)

Stellar Stats Workshop, *University of Toronto* (May)

Future Projections of State-Level Foster Care Populations in the United States

PAA Annual Meeting (April)

Reproducibility in Demography

Toronto Workshop on Reproducibility, *University of Toronto* (February)

Bayesian models and reconciling incomplete demographic data

Demography Seminar, *University of Wisconsin Madison* (February)

2021

The future of data-driven demographic research (Panel member)

Max Planck Institute for Demographic Research 25th Anniversary (October)

A Bayesian cohort component projection model for estimating subnational populations

Demography Seminar Series, *Australian National University* (May)

Centre for Population Change Seminar Series, *University of Southampton* (April)

Population Center Brown Bag, *Florida State University* (February)

Space Time Applied Bayesian (STAB) Working Group, *University of Washington* (February)

Overcoming barriers to sharing code

Toronto Workshop on Reproducibility, *University of Toronto* (February)

Using social media data to estimate migration

Mathematics and Statistics Seminar, *Maynooth University* (February)

2020

Future Projections of State-Level Foster Care Populations in the United States
Association for Public Policy Analysis and Management (APPAM) Annual Meeting, *Virtual meeting* (November)

Bayesian hierarchical models in demographic research
Center for Empirical Research on Stratification and Inequality (CERSI) seminar series, *Yale University* (November)

Using social media data to estimate migration
Toronto Data Workshop (December)
Berkeley Formal Demography Workshop (June)
Network for Economic and Social Trends (NEST) seminar series, *Western University* (March)

2019

Reproducibility in demographic research
MPIDR Open Science Workshop, Rostock, Germany (October)

Combining social media data and traditional surveys to predict migration stocks
MPIDR-IUSSP Workshop on Migration Data and Models for a Better World: Perspectives from Academia, Data Science, and International Organizations, at ASA 2019: New York, NY (August)
Cornell Population Center, *Cornell University* (February)

Software

Author, *rcbayes*, R package to estimate and visualize Rogers-Castro migration schedules in Bayesian framework.
<https://cran.uib.no/web/packages/rcbayes/>

Contributor, *DemoTools*. R package for demographic analysis.
<https://timriffe.github.io/DemoTools/>

Previous Professional Experience

UN Interagency Group on Stateless Populations Estimation
Lead statistical consultant January 2021 – June 2022

World Health Organization Group on Estimation of Causes of Maternal Mortality
Lead statistical consultant January 2019 – December 2020

World Health Organization
Consultant September 2016 – June 2017

Data Science for Social Good
Fellow May 2016 – September 2016

Human Mortality Database
Graduate Student Researcher January 2015 – May 2016

UNICEF Technical Advisory Group
Consultant March 2014 – July 2015

The Centre for Aboriginal Economic Policy Research*Research Officer*

April 2012 – December 2014

Reserve Bank of Australia*Analyst/Senior Analyst*

February 2010 – June 2013

Honors

Max Planck Sabbatical Award	2022-2023
Doctoral Completion Fellowship (<i>UC Berkeley</i>)	2017-2018
Elizabeth Scott Memorial Award (<i>UC Berkeley</i>) Statistics MA student showing the most promise in statistical research.	2015
Regents-Intern Fellowship (<i>UC Berkeley</i>)	2013-2015
Lado Ruzicka Prize in Social Research (<i>Australian National University</i>) Awarded to the most outstanding Master of Social Research candidate.	2013
W.D. Borrie Prize (<i>National essay competition, Masters category</i>) For best student paper on a population-related topic.	2012
University Medal (<i>University of Tasmania</i>) One of three awarded to the most outstanding Science and Technology undergraduates.	2008
Edith Rita Lowenstern Prize (<i>University of Tasmania</i>) Awarded to the most outstanding mathematics honors student.	2008

Service
