

Monica Alexander

monicaalexander.com
monica.alexander@utoronto.ca

Academic Appointments

University of Toronto

Associate Professor (with tenure), Statistical Sciences and Sociology July 2024 – *current*
Assistant Professor, Statistical Sciences and Sociology July 2018 – June 2024
(Maternity leave: April 2019 – December 2019, June 2021 – December 2021)

Education

Ph.D (Demography), **University of California, Berkeley**, 2018.

Dissertation: Bayesian Methods for Mortality Estimation.

Committee: Josh Goldstein (chair); Ken Wachter; Dennis Feehan; Jas Sekhon.

M.Arts (Statistics), **University of California, Berkeley**, 2015.

M.Social Research (Demography), **Australian National University**, 2013.

B.Science (First Class Honors) (Maths and Chemistry), **University of Tasmania**, 2008.

Professional Appointments

Member, Technical Advisory Group

UN Interagency Group

for Child Mortality Estimation

April 2023 – *current*

Papers

(*) denotes student/trainee author

(+) denotes equal contribution

(#) denotes senior authorship

Peer-reviewed articles

Dharamshi, A.(*), **Alexander, M.**, Winant, C. and Barbieri, M. ‘Jointly Estimating Sub-national Mortality for Multiple Populations’. *Demographic Research*, 2025. doi: 10.4054/Dem-Res.2025.52.3.

Chong, M. Y.C.(*), Pejchinovska, M.(*), and **Alexander, M.**, ‘Estimating causes of maternal death in data-sparse contexts’. *Statistics in Medicine*, 2024. doi:10.1002/sim.10199.

Grants awarded

Principal Investigator:

Social Sciences and Humanities Research Council 2023–2025
Insight Grant

Deficits of migration in the age of Covid-19
 CAD \$60,000

Data Sciences Institute, University of Toronto 2023-2024
Catalyst Grant

Inequality in childcare: The case of nannies in Canada. (co-PI)
 CAD \$100,000

Data Sciences Institute, University of Toronto 2023-2024
Computational and Quantitative Social Sciences Grant

Deficits of migration in the age of Covid-19: A new approach to studying changing migration patterns.
 CAD \$10,000

School of Cities, University of Toronto 2021-2022
Urban Challenge Grant

Disparities in climate-induced health outcomes in the Greater Toronto Area. (co-PI)
 CAD \$75,000

Data Sciences Institute 2021-2022
Data Access Grant

To purchase data for research on disparities in climate-induced health outcomes in the Greater Toronto Area. (co-PI)
 CAD \$10,000

Social Sciences and Humanities Research Council 2019–2023
Insight Development Grant
Using Facebook data to measure and understand international migration patterns in Canada
 CAD \$59,000

University of Toronto Connaught New Researcher Award 2019–2021
 CAD \$18,900

Partner Investigator:

National Science Foundation 2024–2027
The United States Fertility Database: Understanding and Monitoring Changes in Local Fertility Patterns

Australian Research Council 2019–2022
Discovery Project Grant
Developing Robust Small Area Population Forecasts for Planning and Policy

Teaching

University of Toronto
 Applied Statistics II (graduate, statistics) Winter, 2020–2024
 Demographic Methods (graduate, statistics) Winter, 2019
Materials: <https://github.com/MJAlexander/demographic-methods>
 Statistics for sociologists (graduate, sociology) Winter, 2023
 Intermediate data analysis (graduate, sociology) Winter, 2021, 2022, 2024
 Intermediate quantitative methods (undergraduate, sociology) Fall 2020, Winter 2023

University of California, Berkeley
Instructor, Formal Demography Workshop June, 2017
Instructor, Formal Demography Workshop August, 2015
Graduate Student Instructor, Demographic Methods Fall Semester, 2014

Other
Instructor, *Code Horizons* 2023–
 Designed and taught workshop on non-traditional data sources in demography April 2022
Materials: <https://mjalexander.github.io/demopop-workshop/>
 Designed and taught workshop on social media in demographic research April 2021
Materials: https://mjalexander.github.io/social_media_workshop/

Conference presentations and invited talks

Listed for the past five years.

2024

Estimating childlessness by age: a Bayesian parametric approach
 Bayesian Methods for the Social Sciences Workshop, University of Amsterdam (October)

Estimating cause of death in data-sparse contexts: recent progress and future challenges
 CARONTE workshop on advances in causes of death modelling, University of Padova (July)

Estimating stillbirth rates by timing

International Association of Official Statistics (IAOS) - International Statistical Institute (ISI) Meeting (May)

Balancing different information sources and modeling decisions in the Bayesian estimation of demographic quantities

Population Association of America (PAA) Annual Meeting (April)

2023**Balancing different information sources and modeling decisions in the Bayesian estimation of demographic quantities**

British Society of Population Studies (BSPS) Annual Meeting (September)

A Bayesian framework to account for misclassification error and uncertainty in the estimation of abortion incidence

American Sociological Association (ASA) Annual Meeting (August)

Using social media data to estimate migration

Joint Statistical Meetings (JSM) (July)

Estimating stillbirth rates by timing

International Statistical Institute (ISI) World Statistics Congress (July)

Bayesian demography: a brief history, recent applications, and future directions

Statistics Seminar Series, *University of Washington* (April)

Racial disparities in fetal and infant outcomes: a multiple decrement lifetable approach

Population Association of America (PAA) Annual Meeting (April)

Racial disparities in fetal and infant outcomes: insights from, and for, formal demography

Demography Seminar Series, *Australian National University* (June)

Nuffield Sociology Seminar Series, *Oxford University* (March)

2022**Estimating stillbirth rates by timing**

Institute of Mathematical Statistics (IMS) International Conference on Statistics and Data Science (December)

Competing Effects on the Average Age of Infant Death: Reconsidering the Approximation of ${}_1a_0$

Social Statistics Seminar, *University of Manchester* (November)

Racial disparities in infant outcomes: insights from, and for, formal demography

Social Demography Seminar, *Harvard University* (November)

Jointly estimating subnational mortality for multiple populations

Bayesian Methods for the Social Sciences Workshop (October)

Stellar Stats Workshop, *University of Toronto* (May)

Future Projections of State-Level Foster Care Populations in the United States

PAA Annual Meeting (April)

Reproducibility in Demography

Toronto Workshop on Reproducibility, *University of Toronto* (February)

Bayesian models and reconciling incomplete demographic data

Demography Seminar, *University of Wisconsin Madison* (February)

2021

The future of data-driven demographic research (Panel member)

Max Planck Institute for Demographic Research 25th Anniversary (October)

A Bayesian cohort component projection model for estimating subnational populations

Demography Seminar Series, *Australian National University* (May)

Centre for Population Change Seminar Series, *University of Southampton* (April)

Population Center Brown Bag, *Florida State University* (February)

Space Time Applied Bayesian (STAB) Working Group, *University of Washington* (February)

Overcoming barriers to sharing code

Toronto Workshop on Reproducibility, *University of Toronto* (February)

Using social media data to estimate migration

Mathematics and Statistics Seminar, *Maynooth University* (February)

2020

Future Projections of State-Level Foster Care Populations in the United States

Association for Public Policy Analysis and Management (APPAM) Annual Meeting, *Virtual meeting* (November)

Bayesian hierarchical models in demographic research

Center for Empirical Research on Stratification and Inequality (CERSI) seminar series, *Yale University* (November)

Using social media data to estimate migration

Toronto Data Workshop (December)

Berkeley Formal Demography Workshop (June)

Network for Economic and Social Trends (NEST) seminar series, *Western University* (March)

Software

Author, *rcbayes*, R package to estimate and visualize Rogers-Castro migration schedules in Bayesian framework.

<https://cran.uib.no/web/packages/rcbayes/>

Contributor, *DemoTools*. R package for demographic analysis.

<https://timriffe.github.io/DemoTools/>

Previous Professional Experience

UN Interagency Group on Stateless Populations Estimation

Lead statistical consultant

January 2021 – June 2022

World Health Organization Group on Estimation of Causes of Maternal Mortality

Lead statistical consultant

January 2019 – December 2020

World Health Organization <i>Consultant</i>	September 2016 – June 2017
Data Science for Social Good <i>Fellow</i>	May 2016 – September 2016
Human Mortality Database <i>Graduate Student Researcher</i>	January 2015 – May 2016
UNICEF Technical Advisory Group <i>Consultant</i>	March 2014 – July 2015
The Centre for Aboriginal Economic Policy Research <i>Research Officer</i>	April 2012 – December 2014
Reserve Bank of Australia <i>Analyst/Senior Analyst</i>	February 2010 – June 2013

Honors

Max Planck Sabbatical Award	2021-2023
Doctoral Completion Fellowship (<i>UC Berkeley</i>)	2017-2018
Elizabeth Scott Memorial Award (<i>UC Berkeley</i>) Statistics MA student showing the most promise in statistical research.	2015
Regents-Intern Fellowship (<i>UC Berkeley</i>)	2013-2015
Lado Ruzicka Prize in Social Research (<i>Australian National University</i>) Awarded to the most outstanding Master of Social Research candidate.	2013
W.D. Borrie Prize (<i>National essay competition, Masters category</i>) For best student paper on a population-related topic.	2012
University Medal (<i>University of Tasmania</i>) One of three awarded to the most outstanding Science and Technology undergraduates.	2008
Edith Rita Lowenstern Prize (<i>University of Tasmania</i>) Awarded to the most outstanding mathematics honors student.	2008

Service

Editorial and refereeing

Associate Editor: <i>Demographic Research</i>
Editor: Special Collection on Formal Relationships, <i>Demographic Research</i> (with Josh Goldstein)
Editorial Board: <i>Canadian Studies in Population</i>

University

Panel Member: <i>International Union of Scientific Study of Populations panel on Digital Demography.</i>
Team Member: <i>Consortium on Analytics for Data-Driven Decision-Making (CAnD3).</i>

Community and other

Co-founder and organizer: Formal Demography Working Group. https://formaldemography.github.io/working_group/

Co-founder: *R-Ladies Toronto*

Women in Demography: Maintain a list of active scholars: https://www.monicaalexander.com/women_scholars/

Professional Memberships

American Sociological Association

American Statistical Association

International Society for Bayesian Analysis

International Statistical Institute

International Union for the Scientific Study of Populations

Institute of Mathematical Statistics

Population Association of America
